Unlock Value with Free Essential Modules!

Get started with Tulasi Software and enjoy these essential modules at no additional cost—designed to empower your business from day one!"

Home Module: Empower Your Team with Seamless Access Control

“Take charge with the Home Module—your command center for managing user access effortlessly. Assign permissions to specific modules and **create unlimited user profiles to fit your business needs.** Whether you're onboarding a new team or optimizing access for existing employees, this module puts you in full control, ensuring a secure and streamlined workflow for your organization."

Accounts Module: Your Business’s Financial Compass

“Simplify your finances with our Accounts Module—a comprehensive solution for managing your business's financial health. Create custom charts of accounts, track cash flow effortlessly, and handle basic accounting with ease. Gain instant access to detailed reports like Trial Balance, Profit, and Loss, empowering you to make informed decisions and drive profitability. Stay ahead with clear, real-time insights into your business performance!.”

Inventory Module: Master Your Stock, Master Your Business

"Take full control of your inventory with our versatile Inventory Module. Effortlessly create and manage masters for birds, medicines, vaccines, office supplies, manure, and more—all in one place. Stay organized and ensure smooth operations with precise stock management. Plus, access detailed Stock Valuation Reports for seamless accounting and real-time insights into your inventory's value. Simplify your workflow and optimize your resources with ease!"

Direct Purchase & Sales Module: Streamline Transactions, Maximize Efficiency

"Simplify your procurement and sales processes with our Direct Purchase & Sales Module. Effortlessly purchase chicks, medicines, vaccines, raw materials, feeds, and more—all from a single intuitive screen. Capture essential details like driver information, delivery challan (DC) numbers, broker details, taxes, TCS deductions, and freight charges with ease. On the sales side, seamlessly manage transactions for birds, eggs, feed, manure, and other products. This all-in-one solution ensures accurate, efficient, and hassle-free operations, empowering you to focus on growing your business while leaving the complexity to us!"

HR System Module: Simplify Workforce Management

"Empower your HR operations with our comprehensive HR System Module. Effortlessly manage employee attendance, streamline salary generation, and maintain accurate records—all in one platform. Create detailed employee profiles with personal document uploads, such as Id cards, ensuring secure and organized data storage. From attendance tracking to payroll processing."

Unlock Some Of The Top Features and Exclusive Offerings Today

1

Dashboard

Empowering decisions with real-time insights through an intuitive dashboard.

2

Supervisor Tracking

Streamline operations with real-time supervisor tracking and farm insights.

3

WhatsApp/SMS Integration

Seamlessly connect with customers through WhatsApp and SMS integration for effortless business transactions.

4

Q&A: Why Invest in a Tulasi Poultry Management Software?

Q1: Why should I buy a Tulasi Poultry Management Software?

Managing a poultry business manually can be challenging, leading to inefficiencies, data errors, and operational delays. Our **Tulasi Poultry Management Software** automates key processes such as flock management, feed tracking, mortality analysis, financials, and inventory. It enhances **decision-making**, reduces **wastage**, and ensures **higher profitability** by providing real-time insights into farm operations.

Q2: Should cost be a primary concern when buying poultry software?

The **cost of the software should not be the sole factor** in your decision-making process. Instead, consider:

- **ROI (Return on Investment):** How much labor, time, and loss will it save you?
- **Scalability:** Will it grow with your business?
- **Automation & Accuracy:** How much will it reduce manual errors and wastage?

Tulasi Poultry Management Software system pays for itself by optimizing farm operations, reducing mortality, and increasing productivity.

Q3: What are the benefits of the Tulasi Poultry Management Software in the short and long term?

✅ **Initial Benefits:**

- Streamlined record-keeping and data entry.
- Instant access to bird inventory, feed usage, and farm performance.
- Reduced human errors and improved farm efficiency.

✅ **Long-Term Benefits:**

- Improved flock health tracking and optimized feeding schedules.
- Data-driven decision-making to enhance profitability.
- Scalability to manage multiple farms effortlessly.
- Seamless compliance with government regulations and audits.

Q4: How can I confidently say that a Poultry Management Software will benefit my business?

The impact of poultry software is measurable.

- **Bird performance tracking** ensures healthier flocks and better yield.
- **Feed optimization** reduces unnecessary costs and increases efficiency.
- **Mortality rate predictions** help plan for future production.
- **Data analytics** improve decision-making, allowing you to focus on **profitability, efficiency, and growth**.

By integrating a **Tulasi Poultry Management Software**, you gain **full control** over your farm, ensuring sustainability and maximum profits.

Seamless Implementation for Guaranteed Success

we ensure a smooth and hassle-free implementation, so you can focus on growing your poultry business while we take care of the tech.

1

Planning Phase:

We engage in comprehensive discussions with clients to understand their desired outcomes, developing a detailed, time-bound work plan that includes buffer periods to accommodate unforeseen delays.

2

Implementation Phase:

Our hierarchical team executes the plan with continuous progress reviews and necessary adjustments, keeping clients informed through regular updates and trackers.

3

Fine Tuning Phase:

Post-implementation, we incorporate additional changes as per client feedback, provide knowledge transfer sessions to client representatives, and enhance business intelligence techniques to ensure optimal acceptance and functionality.

4

Customer Support:

Our dedicated customer support team is always ready to assist, ensuring seamless experiences and timely resolutions for all your needs.

“Our mission is to help poultry farmers like you thrive. We designed this ERP to simplify your daily operations, reduce your stress, and help you achieve better growth—because your success is our success!”

Some Of Our Valued Clients: Building Success Together

Building Success Together, One Client at a Time!

66

At **Tulasi**, we are proud to have partnered with a diverse range of clients, from **early adopters** who have trusted our software since day one to **new clients** who are now joining us on this journey of growth and innovation.

Our **long-standing clients** have experienced the transformative power of our solutions, utilizing **Tulasi ERP** to streamline farm management, improve operational efficiency, and drive informed decision-making. They have played a key role in helping us refine our software, making it more intuitive and impactful.

Tulasi is more than just software; it's a **trusted partner** in driving operational excellence and achieving long-term growth for businesses. We are grateful to each of our clients for their trust and collaboration.

Cutting-Edge Technologies Behind Tulasi ERP

Tulasi ERP is built using the latest **web and mobile technologies** to provide a seamless, secure, and high-performance experience. Our **web application** leverages **PHP** and **MySQL** for robust back-end functionality, while **JavaScript**, **Angular**, **React**, and **AJAX** ensure dynamic, responsive user interfaces. Data is exchanged using **JSON** to ensure smooth integration and data flow. The front-end is crafted with **HTML** and **CSS**, offering a clean, modern, and user-friendly design.

For **mobile applications**, we use the power of **Android** and **iOS** to offer **real-time data tracking** and intuitive interfaces for supervisors and farm in-charges.

With Tulasi, experience the perfect combination of **speed, reliability, and scalability** for managing your poultry operations effectively!

About Tulasi Team

- Our Poultry ERP Team consists of 40 skilled technical experts with 2-12+ years of experience in Domain.
- Providing dedicated support 6 days a week for 9 hours a day.
- Led by an experienced Team Leader & Project Manager, the team ensures that all client tickets are resolved within the 24 Hrs.
- Daily meetings are held to review progress, with a focus on “Do, To Do, and Done” tasks, ensuring efficient and effective resolutions.

“ We’re committed to delivering personalized, timely, and professional support, ensuring your Tulasi ERP experience is seamless and productive..”
